Hycroft Resources & Development Inc

Senior Exploration Geologist

Hycroft Mining Corporation is a US-based gold and silver mining company, which operates its wholly owned Hycroft open pit, gold and silver mine located an hour southwest of Winnemucca, Nevada.

Job Summary

Reporting to the Chief Geologist the exploration geologist is responsible for the daily exploration activities, in a dynamic quickly changing environment where safety and attention to detail is of the highest priority. These activities include geologic sampling, mapping, monitoring of drilling and interpretation of data collected within a large epithermal mineralized property in northern Nevada.

Job Description

1. Ensure safe work environment and all required and applicable best practices are followed.
2. Facilitate and manage exploration and development projects.
3. Ensure adequate QA/QC measures.
4. Assist with reporting as necessary.
5. Generation of geologic maps, cross-sections, geologic models, and presentation material as needed utilizing Vulcan and ArcGIS.
6. Collect, provide, and interpret geologic data as needed.
7. Assist with maintaining accurate exploration data in a timely and efficient manner.
8. Provide support to various groups including Corporate, Mine Operations, Mine Engineering, Permitting/Environmental and other groups as necessary.
9. Perform other duties as assigned.

Qualifications

1. Excellent safety record.
2. Bachelor's Degree in Geology required, Master's Degree in Geology.
3. 7 - 10 years of applicable experience.
4. Must be self-motivated with strong leadership skills.
5. Proficiency in appropriate software, experience in Vulcan and ArcGIS software preferred.
6. Able to achieve goals in a dynamic environment.
7. Good organizational skills.
8. Ability to work with all groups on and around the property.
9. Must be able to communicate clearly, both verbally and in writing.
