

Hycroft Resources & Development LLC

Junior Environmental Engineer

Hycroft Mining Corporation is a US-based gold and silver mining company, which operates its wholly owned Hycroft open pit, gold and silver mine located an hour southwest of Winnemucca, Nevada.

Job description

The successful candidate will help oversee Environmental compliance activities, to include sampling, inspections, training, and other work as assigned. Successful candidate will work within the environmental department and with other departments in a team setting to help find innovative solutions, solve problems, monitor the site, maintain compliance, and modify and develop environmental programs.

Responsibilities

- Conduct field environmental monitoring activities related to air, water, waste, wildlife, soils, vegetation, meteorology, and archaeology
- Investigate, document, and write reports based on the environmental investigation.
- Work closely with site personnel to ensure compliance with the Air Quality Operating Permits, Water Pollution Control Permits, Reclamation Permits, Federal Permits, and other permits
- Maintain and contribute to improvement of sustainable systems to always ensure compliance within the organization.
- Prepare semi-annual and annual compliance reports, as assigned
- Knowledge in environmental risk identification and management, regulatory compliance systems, release reporting, environmental remediation in air, water, reclamation, etc.
- Undertake projects such as designing control or managements systems.
- Compile and interpret data.
- Provide environmental training to on-site employees and contractors
- Responsible for periodic, after hours on-call response to environmental incidents, as needed
- Job will be approximately 60-70% in the field and the remainder in the office setting

Requirements

- Bachelor's Degree in Chemical Engineering, Civil/Environmental Engineering, Environmental Science, or related field required.
 - Experience in data analysis, hydrology, including regulatory agency interactions preferred
 - Knowledge of the mining industry setting preferred
 - Excellent communication verbal, and written skills required
 - Excellent interpersonal skill
 - In-depth experience with Word and Excel required
- Self-starter and ability to work with little or no supervision required
- Analytical mindset and good problem-solving skills.
 - Ability to act in a proactive manner, to anticipate problems, and to solve existing problems within the context of operational requirements and environmental legal constraints required

Benefits/Culture

- This a Salaried Position based on experience.
- As an employee of Hycroft Mining you will get a Great competitive benefits package including:
- 401(k) with 6% dollar for dollar, vested date of hire
- Medical, Dental, Vision Insurance
- Life Insurance
- Voluntary life insurance options for family members
- Employee Assistance Program
- Short Term and Long-Term Disability
